

Abdul Abdallah

W: <http://www.worky.com/abdul-abdallah>

My name is Abdul. I'm 17 years old. I live in Dublin. I am currently doing my leaving cert in June. I hope to live my dream as a footballer in England but if I don't I want to go to Colaiste Ide to do a PLC course called Association football. That course can give me a scholarship for football to America. Football is a big part in my life. I like to be a leader and lead the team out and do my work that I need to do as I can do if I have a job do my work and get it done as I would do on a football pitch. Communicating with people is not a problem. Socialising is a part in me. I can socialise with anyone and make good sales with it.
