Antonio Perez's Professional Experience

2012 - Present **JGEL - electrical supervisor**

I am an Electrical Supervisor/Electrical Engineer with the ability to analyse complex engineering problems, evaluate and recommend alternatives and communicate recommendations effectively seeking answers to Technical Queries.

My written and oral communication skills are excellent on ms word and excel and I enjoy working as part of a team, as well as liaising with contractors and project stakeholders. I enjoy the company and support of my peers while being able to manage my priorities and work. My day-to-day job involves efficiently managing others, communicating complex data to the technical team and breaking down this information for clients and stakeholders.

Problem-solving and troubleshooting are tasks which I face on a daily basis and am confident at resolving. When there is an issue, as often happens in large-scale projects, I am sure to investigate the issue fully, scope out the best methods to resolve it, probe implications of each method, and communicate the data clearly with all relevant team members.

I am a committed professional with the skills and attributes the job requires, and a strong determination to achieve an excellent outcome for my employer. I hope to have the opportunity to discuss this more with you at an interview.

I have the ability to establish and maintain effective communication and rapport with peers, clients, and management. I have considerable experience working with people of diverse backgrounds in Electrical Disciplines.

I have proven business knowledge, as well as exceptional engineering skills and expediting abilities.

I am efficient, organized, and detail oriented, and I believe in thorough follow-up.

My 22 years of experience working in the electrical industry has provided me with a solid base and broad understanding of industry operations and practices. I am keenly aware of the importance of completing projects on time, within budget, and to the client's total satisfaction for Health and Safety in the Workplace.

I am accustomed to working under extreme pressure and handling multiple projects at once.

I have excellent supervisory experience, including setting goals and objectives, project development, planning and organization, budget monitoring and cost control.

Specific examples related to of the employer

- Prepared electrical drawings and specifications.
- Manage project schedules and budgets, and obtain permits for operations.
- Make engineering calculations in connection with field and office assignments.
