W: <http://www.worky.com/babatunde-akinse>

I am a 3rd year Computing Science student with great interest in web development Networking, Game Development etc. I am able to work in a group and as an individual too, When studying or on a project, I think timing is important, always willing to learn from colleagues. A good team Leader and An innovative person.

I enjoy Reading Novels. and Programming

Babatunde Akinse's Professional Experience

2011 - 2011 **Walls and Bridges - Web Developer**

I had to develop a website strictly based on The direction of the client in need of the Website.

I tried as much as possible to be innovative with the work in other not to interfere with the Clients need, and i was able to complete the website and provided a reasonable website with good usability functions in Mind.

i used PHP,HTML,CSS,JQuery, and JavaScript, Mysql in the development of this website.

Key Skills css, HTML, Innovative, JavaScript, jQuery, MySQL, PHP

2009 - 2010 **Sandyford Continental - Web Developer**

I was Consulted to develop A basic website (not Dynamic). for this Company. This projects shows the details of the company on the Web pages and a very little programming was done using PHP for the contact us page. Apart from that, I used HTML,JAVASCRIPT, JQUERY, CSS to develop this site.

Key Skills css, HTML, JavaScript, jQuery, PHP, programming

Babatunde Akinse's Education and Qualifications

2011 **currently studying - Computing Science**

Griffith College

We cover the business parts or the course but widely focused on the course itself in terms of programming. I was introduced to a variety of interesting languages such has Java,PHP,Haskel(personally studied),C, and currently studying Scala for my third year in College.

I would be graduating with an honors degree in Computing Science in the year 2013

Course Reference : GC430 - Computing Science (Dublin)
