chris mccabe

Facebook apps guy, event facilitator - Newry, United Kingdom

W: http://www.worky.com/chris-mccabe

I develop facebook apps, integrate facebook with live sites online through either single login for the site and bringing fb features over or the other way, building facebook tabs with iinformation automatically retrieved from a cms or web app. Also build facebook apps.. working on virtual postcards on facebook at the minute!

Professional Experience

2009 - Present   **justni.com - geek**

Decided to start freelancing with facebook stuff and open source php stuff as i couldnt find a reputable guy in Ireland (north or south) who could handle api's. Now i do my own sales, accounts, support and of course development

Key Skills   facebook, PHP

Education and Qualifications

1950   **PhD/Doctorate - Nothing**

Nothing

Interests

Outside of the general geekery, i organise Bizcamps in the North of Ireland and attend any I don't. It started with bizcampNewry in February 2010 then bizcampCraigavon in May, break for the summer then maybe shall be having a belfast biz type event, digitalcreativeevent and maybe a sector based event.
