

Dr Accetta

Respected Medical Professional - Huntington Beach, United States

W: <http://www.worky.com/draccetta>

Dr. Accetta, a cosmetic surgeon based in Huntington Beach, California, offers a broad range of restorative and aesthetic services through the Accetta Institute of Cosmetic Surgery. Some of the advanced cosmetic procedures Dr. Accetta performs include natural breast augmentation, which involves restoring breast volume using living fat cells from elsewhere on the patient's body. Some of natural breast augmentation's advantages over synthetic implants include fewer health risks, a more natural-appearing outcome, and slimming effects on fat harvesting sites. For more information about the Dr. August Accetta Institute and its cosmetic service selection, please visit www.accettamd.com.
