

Gustavo Anatoly Fernandes

JEE Architect at Funetec PB - Joao Pessoa, Brazil

W: <http://www.worky.com/gustavoanatoly>

My career is based on development, architecting and looking for new possibilities or innovations in the software context, working with corporate applications and critical payment systems.

I'm working with Java (JEE) with Agile Methods in the governmental sphere and in my personal projects.

My interest in technology is web development, using Java, Rails, Scala, Erlang and mobile applications using Objective-C.

Challenges in technical resolutions or non-technical stimulate my motivation, to contribute with a creative way to resolve them.
