ConQuaestor BV is a Dutch management consulting firm specialising in Finance. I originally joined PwC in August 1998. In January 2002 I transitioned internally to PwC Consulting which was sold in January 2003 to IBM Business Consulting Services. IBM BCS became ConQuaestor BV following a management buy-out in April 2004. All changes were subject to transfer of undertaking regulations so my employment has been continuous. I have completed a number of (long) assignments as a Management/Finance Consultant in a variety of Industries and blue chip companies outlined below. All roles held were in The Netherlands.

My last assignments were at IBM, Heineken and Danone.
