Professional Experience

2007 - 2010 **ROK Construction - Carpenter**

Following on from School I enrolled in Moreton Morrell College to become a Fully Qualified Carpenter.

I then was given the opportunity to work within an Established Company, SOL Construction, later became ROK Construction.

I worked 6 Days a week within the Field along side Qualified Co-Workers to gain knowledge of every aspect of Carpentry.

1 Day a Week I continued my College Work until my course was complete.

Where I passed and received a NVQ Level 2 Qualification.

I enrolled for my 3rd Year to be more involved within the Site Management Level, but unfortunately with ROK going into Administration and I was unable to continue.

This opportunity will be available once my Employment status changes.
