Marie Nicholas's Education and Qualifications

2012 **Bachelor/Degree - CBT Psychotherapy**

Caledoninan University

I perceive all of my work experience and education to date has shaped my approach to my work in a non judgemental way. I see myself as a facilitator empowering others to beleive that change is possible to meet their identified goals. I have wprked with a lot of marginalised individuals and believe building rappour and boundary setting iare the cornerstones for good working relations.
