

Nicholas Kaufman

Nicholas Kaufman - Owner of Belfort Instruments

W: <http://www.worky.com/nicholaskaufmanbelfort>

Nicholas Kaufman has owned and operated Belfort Instruments since he purchased it in the 1990s. Founded in 1876, Belfort Instruments has made quality measurement and meteorological instruments for its entire history. When Mr. Kaufman bought Belfort Instruments, it already had a wide array of instruments for sale, and the company has expanded greatly since then. The U.S. Navy uses Belfort Instruments sensors on aircraft carriers. Belfort Instruments developed measurement equipment to help in early efforts to map the moon, as well. Nicholas Kaufman has helped Belfort Instruments expand into real-time digital instrumentation used in numerous applications, including the Automated Surface Observing System for the U.S. National Weather Service.

In addition to operating Belfort Instruments, Nicholas Kaufman has worked in many different jobs in nuclear power operations, nuclear safety, nuclear reactor construction, and environmental cleanup.

Nicholas Kaufman's Professional Experience
