

One Mogae

Interior Architect & Designer - Melbourne, Australia

W: <http://www.worky.com/onehogae>

I'm a young, talented, brilliant interior architect with a pure thirst to learn and to apply all i have learned over the 5 years of being a student. A down to earth person willing to go the extra mile to get things done right and on time. I have the love of starting new things and developing them and using my free time to see how others in the industry design and show their creativity. I love to travel and visit famous cities with a lot of history and to see how modernized they have become.
