

Perri Allen

Industrial Automation Professional

W: <http://www.worky.com/perri-allen>

I would like to express an interest in the position of Erector/Commissioning Engineer/ Technical Maintenance/Fitting and Turning/Toolmaking/Welding and Fabrication/Site Supervisor/Workshop Supervisor/Sheetmetal Work. as advertised on the Jobs Wales web site Based on my experience in on line maintenance works in Ireland and the United Kingdom and on my experience in running my own company in the installation of Structural steel and general installations and Process Maintenance with up to 30 employees on various projects of the most high profile buildings and companies in the Irish Republic in the last 10 years and that I have a wide range of experience in many engineering fields.

• I am confident that this would be a fantastic opportunity for us to work together to advance both mine and your company's future.

My resume that highlights my ability, knowledge and expertise in structural steel work methods of construction, industrial automation and its processes and as well as my ability in other engineering backgrounds is enclosed.

During my time owning and running my own Company with teams of Riggers, Welders, and Fabricators .and Maintenance Technicians, I was able to successfully run the business for the past ten years.

Succeeding in increasing the companies profit margins while increasing productivity and contracts until the collapse of the construction industry here which has forced me to seek work internationally.

I have a wide range of skills and I am sure that such skills would be invaluable to your company I am excited at the prospect filling any employment you may have available for me and look forward to hearing from you in the very near future and would appreciate any opportunity to review my qualifications

with you in more detail. Please do not hesitate to contact me if you have any queries.

Sincerely

Perri Allen
