

ALAMIDI

W: <http://www.worky.com/profile-alamidi>

Professional Experience

1984 - Present **Senior Structural Engineer**

1984 - 2009 **structural designer**

As you can see from my attached C.V,

I do have more than 10 years of working experience in Ireland, worked with two well known structural companies.

1-Ove Arup (www.arup.ie)

2- O`connor Sutton Cronin (www.ocsc.ie)

Dealing with most complex structures such as The Helix(the art centre DCU) , The National conference Centre and The point tower (120 Metre Hight)

At the middle east I do have more than 18 years of working experience ,

I was managing director for more than eight years of consulting engineers firm in Iraq(1989 to 1997).

The firm was providing structural and architect services and my responsibility was to deal with all the activities of the firm including design, management, contract, supervision in additional to all the aspects of construction.

I have good experience of using the structural software with my high qualification in the computer analysis and design (postgraduate diploma in Engineering computation DIT /Ireland 1998)

If you need any information, regarding this c.v ,please do not hesitate to call me.

Best Regards,

Hashim Al Amidi
