RENE ALAYE GNAKOU's Education and Qualifications

2007 **Masters/PostGrad - Professional Postgraduate Diploma in Management International Professional Managers Association (UK)**

management of multi-cultural programs with the staffs at international levels. I have experience in: strategic forward-planning; operating within the tight financial disciplines imposed by ambitious budgets which I have helped to plan; methodical administration to deadlines (not to speak of crisis management where necessary); and the application of modern leadership methods (through staff motivation and involvement in both decision-making and target-setting, clarity in communication, and easy personal inter-relations). My own cosmopolitan abackground and analytical interests in other cultures, together with a command of several European languages have also left me confident in handling negotiations that require the reconciliation of different

national approaches to otherwise common problems.
