David Altavilla

Editor In Chief - HotHardware.com - MA, United States

W: http://www.worky.com/david-altavilla

After establishing HotHardware.com over a decade ago, leading-edge technology expert David Altavilla currently serves as the website's Editor in Chief. Through HotHardware.com—a product-review community focused on emerging entertainment, mobile, and information technologies —he contributes his knowledge on computing and related technologies as a recognized industry expert. David Altavilla has also appeared on radio programs, video product spots and webcasts, discussing current computing topics and trends.

In addition to managing the site's editorial operations, David Altavilla contributes to the company's business development initiatives and helps determine its overall creative direction. Some of his specific daily publishing responsibilities include managing workflow among the editorial team, vetting news stories, and directing topic focus across the site. Mr. Altavilla additionally prepares product launch articles for HotHardware.com, and submits articles to print technology publications.
