

McFadden Alex

Industrial and Graphic Designer

W: <http://www.worky.com/mcfadden-alex>

I'm a Dublin born designer with a passion for what I do. My background in Product Design has enabled me to explore and develop my talents in numerous areas such as graphic design and illustration, as well as 3D modelling and rendering.

I hold a 1st Class Honours BSc in Product Design. This engineering format, coupled with my creative talents and my innate understanding of design and its processes makes me a valuable addition to any project.

With a hard work ethic, a critical eye for detail and a perfectionist attitude; I am out to impress.

McFadden Alex's Professional Experience

2012 - Present

Freelance - Product / Graphic Designer

I love industrial design, illustration and graphic work of all types and I am looking for freelance or permanent employment.

Key Skills industrial design

2011 - 2012

Bank of Ireland - Financial Risk Controller: Invoice Discounting

- Responsibilities: Assess and forecast the financial trends of a client's business in order to calculate the financial risk to the Invoice Discounting facility ; applying appropriate restrictions and approvals to each client.
 - Strong critical analysis and time management skills required; along with interpersonal, multi-tasking, and prioritisation skills. Requires a natural eye for anomalies, primarily financial.
-

2009 - 2011

Bank of Ireland - Chargeback Customer Service Operator

- Responsibilities: Investigate all financial loss claims of Bank of Ireland credit card users; assess each case and pursue reimbursement on the client's behalf.
 - Maintain an excellent standard of service, expertise, and efficiency to maximise positive customer experience.
 - Delegation, communication, and team working with fellow employees in a high pressure environment. Pro-active and independent working.
 - Critical analysis of claims under strict legal and financial regulations. Problem solving and "getting it right" first time, every time.
 - Created innovative work practices to improve cost and time efficiency.
-

Key Skills claims, Innovative

2007 - 2007

Audio Chi - Freelance Graphic Artist

I was hired to produce a Japanese/ Kawaii-esque graphic for a set of designer headphones, in order to generate interest and revenue for the emerging company.
